

## Model 3C Walk-Behind Sweeper

- Direct drive hydraulic broom
- Broom angle adjustment at handlebar
- Easy broom height adjustment
- Fully sealed cast iron casters
- Return-to-neutral safety control handles
- Direct-drive hydraulic propulsion wheel motors

**MAXIMUM EFFICIENCY • SAFER OPERATION • QUIETER**

The Lay-Mor Model 3C Sweeper is the only all hydraulic drive sweeper in the industry, making it more reliable with no belts or chains to adjust or wear out. With broom angle adjustment at the hand controls, the Lay-Mor Model 3C allows the operator to stay in operator's position while making broom angle adjustments. The sweeping height can also be adjusted with an easy to use hand crank offering more precise adjustment for better sweeping performance and increased wafer life. The Model 3C is safer and quieter due to the repositioned engine and muffler, and the independently variable ground speed provides better performance. Ground speed and broom speed can be matched to job conditions.

## Model 3C

### Key Features

*The only all hydraulic drive sweeper in the industry.*

*Broom angle adjustment at Operator's Area.*

*Repositioned engine and muffler for quieter, safer operation with controls accessible from operator's area.*

*Single hand screw adjustment for broom height - No wrenches required.*

*Dual drive motors - No wheel bearings or axle shafts to lubricate or wear out. Wheel hubs are mounted directly to drive motors.*

*Independently variable ground speed for better performance - ground speed and broom speed can be matched to job conditions.*

*Wide, 40" sweeping width.*

*Extra large diameter drive wheels and large diameter broom height casters.*

## S P E C I F I C A T I O N S

Brush wafer size	6-3/8 IDx 24" Dia.	Sweeping angle	30 degrees either direction
Brush width	40"	Brush material	1/2 Poly - 1/2 wire
Brush rotation speed	95 RPM	Overall height	37.5"
Travel speed	2.8 mph	Overall width	47"
Engine size	8 hp Honda	Overall length	91"
Fuel capacity	1 Gallon	Weight w/tire & brush	485 lbs.
Hydraulic oil capacity	5 Gallons		

## S T A N D A R D E Q U I P M E N T

Steel broom core	Fixed displacement gear driven hydraulic pump
30° left or right sweep angle	4.80/4.00 rear drive wheels and tires
40" brush - choice of polyethylene, steel wire or 1/2 poly and 1/2 wire	Single point front caster adjustment
Variable ground speed	Front sealed iron casters with neoprene tires
Dual drive motors	Omaha orange paint
Return to neutral controls	

Optional Lifting Eye
