**RUGGED DESIGN, SUITABLE FOR THE PROFESSIONAL USER**

The HT775 is the most powerful gun in Wagner's heat gun line. It produces 1680 Watts and 5700 BTUs. Additionally, the gun is designed to withstand the wear and abuse of professional use. The gun body is constructed of die-cast metal and the heating element can be replaced in the field.

**SPECIFICATIONS:**

- Variable temp. setting from 750° F. to 1000° F.
- Power: 1680 Watts / 5700 BTUs
- Industrial, die-cast metal housing
- Replaceable heating element
- A fan-only, cool-down setting
