

Yamaha Generator YG6600D

YG6600D

Yamaha 6600watt Industrial Generator

The 8.3 hours of continuous operation @ 1/2 load of the YG6600D's full time dual voltage output is created with a brushless generator system which is exceptionally dependable and maintenance free.

Detailed Specifications

Back

- Type : Brushless - Single Phase
- AC Frequency : 60 HZ
- Maximum AC Output : 6,600Watts
- Rated AC Output : 6,000 Watts
- Rated AC Current : 50 Amps @ 120 Volts
- 25 Amps @ 240 Volts
- Driving Method : Direct
- **MISCELLANEOUS**
- Fuel Tank Capacity : 5.5 gal
- Recommended Fuel : Unleaded Regular
- Continuous Operating Hours: 8.3 @ 1/2 load
- Dimensions (L x W x H) : 26.4" x 20.1" x 22"
- Dry Weight : 185 lb
- Noise Level (Maximum @ 23 ft) : 73.5 dBA

• ENGINE

- Type : 4-Stroke, OHV, Air Cooled
- Rated Horsepower : 12HP @ 3,600 rpm
- Bore x Stroke : 85 x 63mm
- Displacement : 357cc
- Cooling : Forced Air
- Lubrication : Wet Sump
Oil Capacity : 1.2 qt
- Starting Method : Recoil
- Ignition System : Transistor Controlled

Receptacle Configuration

QTY	NEMA#	DESCRIPTION
2	5-20R	20 Amp 120 Volt Straight Blade GFI
1	L-5-20R	20 Amp 120 Volt TwistLock (3 Blade)
1	5-20R	30 Amp 120 Volt TwistLock (3 Blade)
1	L-1430R	30 Amp 120/240 Volt TwistLock (4 Blade)
